developments in the  
chemical detection  
of explosives in a  
variety of  
environments.

Beginning with a  
broad view of the  
need for and the  
potential  
applications of  
chemical sensing,  
the book considers  
the issue of how to

effectively include  
Ethernet Nic To  
chemical sensing  
Use Dhcp In  
into systems

designed to find  
hidden explosives  
devices. Offering a  
firsthand look at the  
latest technologies  
direct from those  
who are actively  
developing them,  
the book features: A  
look at the history of

Practical Studies:  
Security (CCIE Self-  
Study)" provides a  
series of lab  
scenarios that help a  
CCIE candidate or  
advanced-level  
networker gain that  
expertise. The labs  
show how, with or  
without a lab of actual  
equipment, different  
concepts are applied.  
Chapters include
