Naught ' s Had is the story of Kimberley and Alex, two ordinary, unsophisticated young people, set against the backdrop of the 1970's. As rock 'n roll energizes their world and makes them believe in tomorrow, the story plays out the complexities of two people, and their choices of how to love, and not love each other. Author's Opening Comments: “ My novel is about passion, longings, fears. It is about not knowing how to love but loving anyway. It is about social pressures. It is about letting love be whatever it is. It is about holding on and holding back. It is about games people play. It is about the interplay between love and fear. It is loud. It is urgent. It is young. It is frustrating. It has something to say about being alive.

“ The book is built on an experiential sense of form, not a conceptual one. There is no narrative voice outside the perspective of the characters, and none of the perspectives are raised above the others. No one is right; they are merely experiencing, and, in that, discovering. Life appears on the pages in all it's everyday, unsophisticated glory. And, like life itself, the novel does not resolve its tensions. ” \*\*\*\*\* “ This isn ' t your everyday romance ... These are complex characters, with complex backstories, detailed painstakingly ... characters you won ' t soon forget, dealing with issues that are unfortunately too prevalent in today ' s society. The author does a masterful job of exploring the complex nuances of relationships with her often lyrical, almost stream-of-consciousness writing style. ” Publisher ' s Daily Reviews Kimberley and Alex make their choices until their love for each other lead both to go in separate directions. But, before this happens, we experience the questioning of life itself through these characters, as they try to understand ‘ this thing called love, ’ intellectually through Kim,

and viscerally through Alex. No solution is ever given. We have it “naught” (as it were) – we’ll just have to try to figure it out for ourselves. It’s a ‘whodunnit’ on the relationship front.

A variety of crucial and still most relevant ideas about nothingness or emptiness have gained profound philosophical prominence in the history and development of a number of South and East Asian traditions—including in Buddhism, Daoism, Neo-Confucianism, Hinduism, Korean philosophy, and the Japanese Kyoto School. These traditions share the insight that in order to explain both the great mysteries and mundane facts about our experience, ideas of “nothingness” must play a primary role. This collection of essays brings together the work of twenty of the world’s prominent scholars of Hindu, Buddhist, Daoist, Neo-Confucian, Japanese and Korean thought to illuminate fascinating philosophical conceptualizations of “nothingness” in both classical and modern Asian traditions. The unique collection offers new work from accomplished scholars and provides a coherent, panoramic view of the most significant ways that “nothingness” plays crucial roles in Asian philosophy. It includes both traditional and contemporary formulations, sometimes putting Asian traditions into dialogue with one another and sometimes with classical and modern Western thought. The result is a book of immense value for students and researchers in Asian and comparative philosophy.

Situating former Harvard neurosurgeon Dr. Eben Alexander's Near-Death Experience within the ontological landscape of Romanity, or, the 'Byzantine'-Ottoman Continuum of Roman Ecumenicity, namely: Judaism, Christianity, and Islam, *God's Gift, World's Deception* is a unique exploration of this unique NDE, attesting to its vital and organic ties to those experiences of the New Testament Fathers of the 'Byzantine' Apostolic Catholic Orthodox Church ( , the unity of all being/existents), which came to them via theosis. The book claims that Dr. Alexander's experience is indeed a continuation and

completion of the theophanic visions of the Old Testament Prophets, and is linked to the imaginal divine becomings of the Koranic Ottoman vahdet-i v ü cud tasavvuf Masters ('the unity-of-Being' Sufism, in both Sunni and Alevi traditions); but also highlights the distorting effects of the interpretive resources available in the predominantly neo-Gnostic-cratic West (religious and secular), as well as its Globalist agenda, creating an unfit backdrop for an exegetical attempt at the Proof of Heaven Experience. Ultimately, God's Gift, World's Deception reconfirms the engendered existence of the Divine-human Ecumene as a historically spiritual-somatic reflection of the Divine Realm, and, above all, it shows the Theanthropic Lord Jesus Christ as the True Om, the Real Hak î kat- ı Muhammediyye, and the Eternal Tao. This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought--negative theology and philosophy--in both Western and Eastern traditions. Following the Introduction by Toby Foshay, two of Derrida's essays on negative theology, Of an Apocalyptic Tone Newly Adopted in Philosophy and How to Avoid Speaking: Denials, are reprinted here. These are followed by

essays from a Western perspective by Mark C. Taylor and Michel Despland, and essays from an Eastern perspective by David Loy, a Buddhist, and Harold Coward, a Hindu. In the Conclusion, Jacques Derrida responds to these discussions.

This is the story of the Cleburne Railroaders and the 1906 Texas season. Tris Speaker was an 18 year old rookie that season on his way to Baseball's Hall of Fame. Ft. Worth and Dallas battled for the first half flag, but it was Cleburne at season's end that proved to be the best.

This work by Whiddon is his only known work. It was primarily prepared for his flock to teach them and remind them about living well before God with a conscience that is purified (regenerated) and pacified (put at peace) by the blood of Jesus Christ and the power of the Spirit of Christ. His principle text is Hebrews 13:18, "For we trust we have a good conscience, willing in all things to live honestly." Whiddon called this work "his tract" to his flock that they might read over and study the contents

so as not to forget how to live their life before Christ and men with a "good conscience." He covers the definition and meaning of a good conscience; the opposed nature of a natural conscience; the means to purify and pacify a fallen sinner's conscience; how to hold onto a good conscience and how to exercise it. Edmund Calamy makes a notation of Whiddon in his work "The Nonconformist's Memorial" and notes the exceptional character of Whiddon in passing, and the popularity of this work, "The Golden Topaz." This is not a scan or facsimile, has been updated in modern English for easy reading and has an active table of contents for electronic versions.

And now we find seated on the throne of France a young Monarch of a strange, wild, unattractive exterior. His eye is pale, colourless and shifty, seeming to be void of all expression. He trusts no man, and has no real assurance of his power as Sovereign; he looks long and suspiciously at those about him before speaking, rarely bestows his confidence and believes himself constantly surrounded by spies. 'Tis a nervous, timid child,—'tis Charles IX. History treats him with an extreme severity; and the "St. Bartholomew" has thrown a lurid light over this unhappy Prince's figure. He allowed the massacres on the fatal nights of the 24th and 25th of August, and even shot down the flying Protestants from his palace roof. Without going into the interminable discussions of

historians as to this last alleged fact, which is as strongly denied by some authorities as it is maintained by others, I am not one of those who say hard things of Charles IX. It is more a sentiment of pity I feel for him,—this monarch who loved Brantôme and Marot, and who protected Henri IV. against Catherine de Medici. I see him surrounded by brothers whom he had learned to distrust. The Due d'Alençon is on the spot, a legitimate object of detestation by reason of the subterranean intrigues he is for ever hatching against his person; while his other brother Henri (afterwards Henri III.), Catherine's favourite son, is in Poland, kept sedulously informed of every variation in the Prince's always feeble health, waiting impatiently for the hour when he must hurry back to France to secure the crown he covets. Then his sister's vicious outbreaks are a source of constant pain and anxiety to him; and last but not least there is his mother Catherine de Medici, an incubus that crushed out his very life-breath. He cannot forget the tortures his brother Francis suffered from his mysterious malady, and his premature death after a single year's reign. Catherine hated Mary Stuart, his young Queen, whose only fault was to have exaggerated in herself all the frailties together with all the physical perfections of a woman; and dreadful words had been whispered with bated breath about the Queen Mother. An Italian, deprived of all power while her husband lived,

insulted by a proud and beautiful favourite, yet knowing herself well fitted for command, she had brought up her children with ideas of respect and submission to her will they were never able to throw off. The ill-will she bore her daughter-in-law was the cause of all those accusations History has listened to over readily. But Charles, a nervous, affectionate child, whose natural impulses however had been chilled by his mother's influence and the indifference of his father Henri II., was thrown back on himself, and grew up timid, suspicious and morose. The frantic love of Francis for his fascinating Queen, the cold dignity of Catherine in face of slights and cruel mortifications, her bitter disappointment during her eldest son's reign, her Italian origin (held then even more than now to imply an implacable determination to avenge all injuries), her indifference to the sudden and appalling death of the young King, the insinuations of her enemies,—all combined to make a profound impression on Charles, giving a furtive and, if we may say so, a haggard bent to his character. Presently, seated on the throne of France, Huguenots and Catholics all about him, exposed to the insults and pretensions of the Guise faction on the one hand and that of Coligny on the other, dragged now this way now that between the two, yet all the while instinctively drawn toward the Catholic side by ancestral faith and his mother's counsels no less than by reasons of state, Charles

A Romance

**ALL FOR NAUGHT** collects a novella and a novelette:

**"Naught for Hire"** and **"Naught Again."** **"Naught for Hire"** is a quirky, action-packed, comedy set just a few years from now. Nick Naught, private eye, walks down some strange mean streets as he tries to stay ahead of the killers on his tail and tries to cope in a world where all the irritations we have with technology are magnified. Gadgets act up in big ways, including voice operated machines that talk back to people. Nick Naught winds up on a hit list, but he doesn't even realize it at first, because the "accidents" are so much like his normal hazardous life. Annette Taylor, Nick's former lover, shows up in his office shortly after she runs into trouble too. **"Naught Again"** follows Nick's adventures as he looks into trouble at the local cryogenics lab. **ALL FOR NAUGHT** satirizes the daily frustrations with malfunctioning technology, devices that always seems to fail right when we need them most, and machinery that must have been designed by committee. It lampoons everything from pompous lawyers and the IRS to digital watches and endless lines at the drivers license bureau. It's filled with laugh-out-loud situations that everyone can identify with. A sextet of sceptic texts has been collected in **Stoic Six Pack 4 - The Sceptics: Pyrrhonic Sketches** by Sextus Empiricus, **Life of Pyrrho** by Diogenes Laërtius, **Sextus Empiricus and Greek Scepticism** by Mary Mills Patrick, **The Greek Sceptics: from Pyrrho to Sextus** by Norman MacColl, **Stoics and Sceptics** by Edwyn Bevan and **Life of Carneades** by Diogenes Laërtius. A key concept for the sceptics was ataraxia ("tranquility"), a Greek term used by Pyrrho to describe a lucid state of robust tranquility, characterized by ongoing freedom from distress and worry. By applying ideas of what he called "practical
