Is security necessarily

This volume contributes to a better and deeper understanding of the relation between privacy, surveillance and security, comprising in-depth investigations and studies of the

Acces PDF

represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key

Acces PDF

Book Black

confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both

on concrete studies,
out of which a
reflection on this
conjunction
emerges, as well as
on the
reconstruction of
certain research
lines featuring a
spatiotemporal
component. This
analytical approach
makes a

Acces PDF
Esposti Telephone

Book Black

contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a

Acces PDF
Esposti Telephone
And Address
Book Black

Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the

Acces PDF
Esposti Telephone
And Address
Book Black

flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables

Acces PDF
Esposti Telephone
And Address
Book Black

historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses

Acces PDF
Esposti Telephone
And Address
Book Black

experiences in
which space
operates as a
determining factor of
law, e.g. in terms of
a field of action for
law. Moreover, it
outlines the
attempted scales of
spatiality in order to
develop legal
historical research.
With reference to

Acces PDF
Esposti Telephone
And Address
Book Black

the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus

Acces PDF
Esposti Telephone
And Address
Book Black

making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal
