A 2018 Caldecott Honor Book that Kirkus Reviews calls "a must-read for our times," A Different Pond is an unforgettable story about a simple event - a long-ago fishing trip. Graphic novelist Thi Bui and acclaimed poet Bao Phi deliver a powerful, honest glimpse into a relationship between father and son - and between cultures, old and new. As a young boy, Bao and his father awoke early, hours before his father's long workday began, to fish on the shores of a small pond in Minneapolis. Unlike many other anglers, Bao and his father fished for food, not recreation. A successful catch meant a fed family. Between hope-filled casts, Bao's father told him about a different pond in their homeland of Vietnam. Thi Bui's striking, evocative art paired with Phi's expertly crafted prose has earned this powerful picture books six starred reviews and numerous awards.

An Unofficial Guide to Suzanne Collins' Hunger Games, From Mellark Bakery to Mockingjays

Ever wonder how some people become enthusiastic and on fire about their relationship with God? In thirty-three short chapters, Albert Haase gives you the tools and kindling to prepare for the spark of God in your life – and then shows you how to fan it into flame until you are set ablaze. This book glows with time-tested wisdom as an experienced spiritual director shares the secrets of the saints. Feel cold? Or maybe just smoldering? With supplemental reading suggestions and reflection questions, this eminently practical book functions like a personal, spiritual retreat.

In this stunningly original book, Richard Wrangham argues that it was cooking that caused the extraordinary transformation of our ancestors from apelike beings to Homo erectus. At the heart of Catching Fire lies an explosive new idea: the habit of eating cooked rather than raw food permitted the digestive tract to shrink and the human brain to grow, helped structure human society, and created the male-female division of labour. As our ancestors adapted to using fire, humans emerged as "the cooking apes". Covering everything from food-labelling and overweight pets to raw-food faddists, Catching Fire offers a startlingly original argument about how we came to be the social, intelligent, and sexual species we are today. "This notion is surprising, fresh and, in the hands of Richard Wrangham, utterly persuasive ... Big, new ideas do not come along often in evolution these days, but this is one." -Matt Ridley, author of Genome
