Discover the darker side of the Garden State with this anthology of gritty mystery stories. Akashic Books continues its award-winning series of original noir anthologies, launched in 2004 with Brooklyn Noir. Each volume is compromised of all-new stories, each one set in a distinct location within the geographical area of the book. In New Jersey Noir, a star-studded cast of authors sifts through the hidden dirt of the Garden State. Featuring brand-new stories (and a few poems) by Joyce Carol Oates, Jonathan Safran Foer, Robert Pinsky, Edmund White & Michael Carroll, Richard Burgin, Pulitzer Prize–winner Paul Muldoon, Sheila Kohler, C.K. Williams, Gerald Stern, Lou Manfredo, S.A. Solomon, Bradford Morrow, Jonathan Santlofer, Jeffrey Ford, S.J. Rozan, Barry N. Malzberg & Bill Pronzini, Hirsh Sawhney, and Robert Arellano. Praise for New Jersey Noir “ Oates ’ s introduction to Akashic ’ s noir volume dedicated to the Garden State, with its evocative definition of the genre, is alone worth the price of the book . . . Highlights include Lou Manfredo ’ s “ Soul Anatomy, ” in which a politically connected rookie cop is involved in a fatal shooting in Camden; S.J. Rozan ’ s “ New Day Newark, ” in which an elderly woman takes a stand against two drug-dealing gangs; and Jonathan Santlofer ’ s “ Lola, ” in which a struggling Hoboken artist finds his muse . . . Poems by C.K. Williams, Paul Muldoon, and others—plus photos by Gerald Slota—enhance this distinguished entry. ” —Publishers Weekly “ It was inevitable that this fine noir series would reach New Jersey. It took longer than some readers might have wanted, but, oh boy, was it worth the wait . . . More than most of the entries in the series, this volume is about mood and atmosphere more than it is about plot and character . . . It should go without saying that regular readers of the noir series will seek this one out, but beyond that, the book also serves as a very good introduction to what is a popular but often misunderstood term and style of writing. ” —Booklist, Starred Review “ A lovingly collected assortment of tales and poems that range from the disturbing to the darkly humorous. ” —Sheff Awareness

Financial Trading and Investing, Second Edition, delivers the most current information on trading and market microstructure for undergraduate and master ’ s students. Without demanding a background in econometrics, it explores alternative markets and highlights recent regulatory developments, implementations, institutions and debates. New explanations of controversial trading tactics (and blunders), such as high-frequency trading, dark liquidity pools, fat fingers, insider trading, and flash orders emphasize links between the history of financial regulation and events in financial markets. New sections on valuation and hedging techniques, particularly with respect to fixed income and derivatives markets, accompany updated regulatory information. In addition, new case studies and additional exercises are included on a website that has been revised, expanded and updated. Combining theory and application, the book provides the only up-to-date, practical beginner’s introduction to today’s investment tools and markets. Concentrates on trading, trading institutions, markets and the institutions that facilitate and regulate trading activities Introduces foundational topics relating to trading and securities markets, including auctions, market microstructure, the roles of information and inventories, behavioral finance, market efficiency, risk, arbitrage, trading technology, trading regulation and ECNs Covers market and technology advances and innovations, such as execution algo trading, Designated Market Makers (DMMs), Supplemental Liquidity Providers (SLPs), and the Super Display Book system (SDBK)

'I recommend this book highly to everyone.' – Deepak Chopra, M.D. This special updated version of the New York Times–bestseller, Kitchen Table Wisdom, addresses the same spiritual issues that made the original a bestseller: suffering, meaning, love, faith, and miracles. 'Despite the awesome powers of technology, many of us still do not live very well,' says Dr. Rachel Remen. 'We may need to listen to one another's stories again.' Dr. Remen, whose unique perspective on healing comes from her background as a physician, a professor of medicine, a therapist, and a long-term survivor of chronic illness, invites us to listen from the soul. This remarkable collection of true stories draws on the concept of 'kitchen table wisdom', the human tradition of shared experience that shows us life in all its power and mystery and reminds us that the things we cannot measure may be the things that ultimately sustain and enrich our lives.

An accessible explanation of climate change summarizes its science while sharing insights into its implications for the future, answering key questions from the role of fossil fuels to the economic costs of reducing carbon emissions.

For better or worse, museums are changing from forbidding bastions of rare art into audience-friendly institutions that often specialize in “blockbuster” exhibitions designed to draw crowds. But in the midst of this sea change, one largely unanswered question stands out: “What makes a great exhibition?” Some of the world’s leading curators and art historians try to answer this question here, as they examine the elements of a museum exhibition from every angle. What Makes a Great Exhibition? investigates the challenges facing American and European contemporary art in particular, exploring such issues as group exhibitions, video and craft, and the ways that architecture influences the nature of the exhibitions under its roof. The distinguished contributors address diverse topics, including Studio Museum in Harlem director Thelma Golden’s examination of ethnically-focused exhibitions; and Robert Storr, director of the 2007 Venice Biennale and formerly of the Museum of Modern Art, on the meaning of “exhibition and “exhibitionmaker.” A thought-provoking volume on the practice of curatorial work and the mission of modern museums, What Makes A Great Exhibition? will be indispensable reading for all art professionals and scholars working today.

This book is crammed with puzzles designed to stimulate each of your brain’s cognitive functions, keeping it strong and fit. Many different types of puzzles are included, and each of the five levels increases the challenge of solving them. Includes three self-evaluations that allow you to assess your improvement in areas such as focus, attention, memory, and more. With these puzzles, exercising your brain can be fun! The consultant is Dr. Elkhorn Goldberg, a Ph.D. neuropsychologist who created the Manhattan-based Cognitive Enhancement Program, a fitness center for the brain and who wrote The Executive Brain: Frontal Lobes and the Civilized Mind; and The Wisdom Paradox: How Your Mind Can Grow Stronger as Your Brain Grows Older.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

*It's rare to discover a candid sports autobiography-- even rare when the author is one of the most recognizable athletes in the world. But in Shaq Talks Back, Shaquille O'Neal for the first time talks frankly about his childhood, his life, his rivalries, and his career, culminating in a dramatic, behind-the-scenes account of the Los Angeles Lakers' drive to the NBA Championship. At seven feet one inch tall and 330 pounds, Shaq has always faced outsized expectations, even as a child when he towered over other kids. Shaq Talks Back is the story of how potential became reality-- how someone expected to be a champion finally learned to become one. Beginning with his memory of crying on the court after the Lakers defeated the Indiana Pacers, Shaq takes us back to his younger days in Newark and Jersey City, New Jersey, then to Georgia and finally to Germany, where he began to harness some of his height and strength. From there, he recounts the remarkable progress of his basketball career, changing from a big but inexperienced teenager to a dominant college and professional player. Shaq talks about: * Playing at Louisiana State University for the unpredictable coach Dale Brown * Signing the biggest rookie contract ever with the Orlando Magic-- and going to the NBA Finals for the first time * What happened next: dissention, disappointment, and his decision to leave for Los Angeles * The dysfunctional Lakers who were never able to win the big games * Dealing with egos as he finds the right chemistry with Kobe Bryant, Phil Jackson, and new additions to the team * Rivalries with Alonzo Mourning, Patrick Ewing, Hakeem Olajuwon, David Robinson, and others * "Bling-bling" and women: the larger-than-life world of NBA players off the court * Inside the Lakers' comeback from the brink against Portland and the drive to the NBA championship Funny, insightful, opinionated, and unexpectedly moving, Shaq Talks Back is the true voice of the NBA's best player.*

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

A "student-friendly" introduction to the basics of electric circuit analysis, this sophomore-level text covers traditional material, as well as such modern topics as op-amps and the use of digital computers for circuit analysis. The presentation is very lucid and thorough with clearer and more complete explanations of Kirchoff's laws, and nodal analysis than in comparable texts. Bobrow also places greater emphasis on signals and waveforms. This text features evaluation of initial conditions, phasor diagrams, and coverage of SPICE.

Two of America's most popular authorities on healthy eating and cooking join forces in this delectable, inspiring and easy-to-use cookbook. Dr Andrew Weil - author of the best-selling Eating Well For Optimum Health - brings to this collaboration a comprehensive philosophy of nutrition grounded in science. Rosie Daley - acclaimed for her best-seller In The Kitchen With Rosie - brings to it her innovative and delicious spa cuisine. Lifelong good health begins in the kitchen, so this is a lifestyle book as well as a cookbook. But throughout, The Healthy Kitchen emphasizes the pleasure of food - in the writing, in the anecdotes, in the commentaries, in the superb photography (including pictures of the authors at work from garden to table) and in the recipes themselves. With 135 fabulous recipes and invaluable information on what constitutes genuinely healthy eating today, this revolutionary book will change the way you cook for yourself and your family forever.

Pocket Ruth Bader Ginsburg Wisdom is an inspired collection of some of the most empowering and impactful quotes from the powerhouse associate justice of the US Supreme Court.
