***Concepts of Biology is designed for
the single-semester introduction to
biology course for non-science
majors, which for many students is***

Read Book Digestive Packet Key

their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired

Read Book Digestive Packet Key

down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant

Read Book Digestive Packet Key

to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the

Read Book Digestive Packet Key

interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that

Read Book Digestive Packet Key

instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key

Circulatory, Digestive &

Reproductive Systems Gr. 5-8

The Digestive System

Read Book Digestive Packet Key

This is the chapter slice "The Circulatory System - Blood Vessels" from the full lesson plan "Circulatory, Digestive & Reproductive Systems"

How can you tell the difference between an artery and a vein? Our resource tells you how! Learn the major organs of four body systems and how they work to

Read Book Digestive Packet Key

keep us alive and healthy. We begin with blood, blood vessels and the heart. Next, we follow the path food takes from the mouth to the large intestine, and find out how food is turned into fuel. Then it's on to how the liver, lungs and skin all help rid our body of toxins. We look inside the kidneys and intestines,

Read Book Digestive Packet Key

and finish with how a tiny sperm and egg cell can grow into a baby. Reading passages, student activities, test prep, and color mini posters all included. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy and STEM initiatives.
