southern Illinois town of Mount Vernon, sending shockwaves throughout the nation. The murder of the Odle family remains one of the most horrific family mass murders in U.S. history. Odle was sentenced to death and, after seventeen years on death row, expected a lethal injection to end his life. However,

Illinois governor George Ryan's moratorium on the death penalty in 2000, and later commutation of all death sentences in 2003, changed Odle's sentence to natural life. Following the commutation and the removal of the weight of eventual execution associated with his death sentence, he was confronted with an unfamiliar reality. A future. As a result, he realized that he needed to understand why he

Robert Hanlon, a neuropsychologist who had examined him in the past. Dr. Hanlon engaged Odle in a therapeutic process of introspection and self-reflection, which became the basis of their collaboration on this book. Hanlon tells a gripping story of Odle's
