

Guide Dog Owners

A guide to dog care from puppyhood to old age includes information on how to select the right breed, house-training, showing, breeding, health care, feeding, and first aid.

Spaniel Training - Dog Training for your Spaniel puppy The training of dogs is often... .. confused with classical dog training drills ... only considered necessary for demanding dogs ... mocked by other dog owners ... replaced by anti-authoritarian methods ... considered too difficult to achieve without experience. What constitutes dog training and what is it good for? And how can you and your Spaniel profit from it without having any experience? The most important thing is

Get Free Guide Dog Owners

to understand how a dog sees his world, what is "normal" for him and how you can use this to your advantage. In addition, the characteristics of each breed are significant when you get beyond the basic training phase. Your Spaniel will show characteristics which are different to those of a Husky, for example, and this is predominantly what you need to consider during training. This book is vol. 1 of the Spaniel training books. Vol. 2 for your grown up Spaniel is also available with the title "Spaniel Training Vol. 2: Dog Training for your grown-up Spaniel" Author Claudia Kaiser says about her book: "It was my desire to let other dog owners profit from the knowledge I have gained over many years, and after making many mistakes. I love my dog and know how important it is to adapt the training to suit each breed. It is exactly this desire

that prompted me to write this book. My aim is to help every beginner, not only to understand his dog better, but also to know exactly how to get the best results, step-by-step, so that you can achieve a close, positive and trusting human-dog relationship." Quench your curiosity to know about background information, read reports on other experiences and obtain step-by-step instructions and secret tips which are tailor-made for your Spaniel. Get your copy of this book today and experience... .. how your Spaniel sees his world ... and how you can progressively train your dog to receive the best results. Your Spaniel will appreciate it... .. so this is my advice: Don't hesitate to buy this book! For the dog to become a safe and fluent guide for a vision impaired person it will be necessary for it to employ the cognitive processes of selective attention, pattern recognition, categorisation, discrimination, prediction and the mental representation of knowledge and its translation into action. Above all the guide dog needs to be a confident decision maker and problem solver, capable of operating with purposeful intent within a set of rules. If the dog is to guide its vision impaired owner safely in town or city, stopping at kerbs, avoiding pedestrians and street furniture, manoeuvring around ladders and helping its owner cross roads safely, it

Oh, I have mine too. When it comes to being blind, I'm not very good at it and Uska has to cope with that. I guess some days we drive each other nuts, which is hardly surprising because we truly are a 24/7 partnership. Mind you, I do love the bones of him and not just because he's totally changed my life. Since I first got him, I've been wondering what is really going on in that head of his, especially when he's working with me in supermarkets, or at parties, or on trains and even in hospital casualty wards. During the early months, he was the only dog I knew who could make his harness look rakish, like a lovable rascal in an

old Hollywood movie. If he'd spent as much time learning to work with me, as he spent on artfully dodging his way to any dropped chips, he'd have been Guide Dog of the year. As it was, he managed to guide me down the aisle and a rock sliding mountain. He played paramedic for a day and stayed right by my side as my health got worse and worse. All this before he was 3 years old. 'Confessions of a Guide Dog' is Uska's version of events, during that extraordinary first year. His 'lick-n-tell' memoirs are as loyal and loving as a Labrador could make them, but they do come from a dog and dogs don't lie. Expect some home truths about the human race, blind living and dog loving, all told with a humour that reflects the effect he has on people around him. This should spread to everyone who reads them.
