Why do we keep playing the lottery when we know we'll lose? How does what we laugh at—those bad jokes, wry allusions, and nasty pratfalls—tell us who we are? And what happens when, through some unforeseen mishap, we lose our identities and become Jane or John Doe? Eric LeMay explores these and other questions in fifteen innovative essays that center on the American self. From reflections on small-town life and baby-making to meditations on found art, 19th century landscape gardens, webcams, and the emergence of the AIDS pandemic, these essays celebrate the layered selves we inhabit, inherent, and sometimes invent. With humor and with reverence, *In Praise of Nothing* beholds what Wallace Stevens has called the "nothing that is not there and the nothing that is." Presents the latest safety ratings, dealer prices, fuel economy, insurance premiums, maintenance costs, and tires of new model automobiles.

Asset Forfeiture Law in the United States - Second Edition serves as both a primer on forfeiture law for the newcomer to this area, as well as a handy resource for anyone needing a comprehensive discussion of any of the recurring and evolving forfeiture issues that arise daily in federal practice. The author is one of the federal government's leading experts on asset forfeiture law. As a federal prosecutor, he has been litigating asset forfeiture cases since the late 1980's, was a Deputy Chief of the Justice Department's Asset Forfeiture and Money Laundering Section for many years, and is now the Chief of the Asset Forfeiture and Money Laundering

Section in the U.S. Attorney's Office in Baltimore, MD. Asset Forfeiture Law in the United States - Second Edition is a completely revised and up-to-date treatise that addresses important changes and significant developments in civil and criminal forfeiture law. Every chapter has been rewritten as a result of the explosive growth in this area of law and practice. This comprehensive one-volume resource examines and explores the outpouring of new case law stemming from federal law enforcement agencies that include the FBI, DEA, IRS and Homeland Security. The Second Edition continues to lead the practitioner, prosecutor, judge and policy maker through the labyrinth of statutes, rules and cases that govern this dynamic area of the law. Many countries in Europe, Asia and Africa, as well as Australia and the Americas, have enacted asset forfeiture statutes modeled on U.S. law, making the cases interpreting the statutes relevant beyond the borders of the United States.

Essays, Memoir, and Experiments

The past decade has witnessed the emergence of a new vanguard in African American political leaders. They came of age after Jim Crow segregation and the Civil Rights Movement, they were raised in integrated neighborhoods and educated in majority white institutions, and they are more likely to embrace deracialized campaign and governance strategies. Members of this new cohort, such as Cory Booker, Artur Davis, and Barack Obama, have often publicly clashed with their elders, either in campaigns or over points of policy. And because this generation did not experience codified racism, critics question whether these leaders will even serve the interests of African Americans once in

office. With these pressing concerns in mind, this volume uses multiple case studies to probe the implications of the emergence of these new leaders for the future of African American politics. Editor Andra Gillespie establishes a new theoretical framework based on the interaction of three factors: black leaders' crossover appeal, their political ambition, and connections to the black establishment. She sheds new light on the changing dynamics not only of Black politics but of the current American political scene.
