Lions

National Geographic Readers: Manatees

This exciting reader follows the story of the longest and the most demanding elephant migration on the planet. Living at the furthest corners of the hot and dry Sahara Desert, the very margins of where elephants can survive, hundreds of these great creatures make a dangerous but necessary journey as their main source of food and water dries up and they must go in search of more. Battling 120-degree heat, sandstorms, and fierce thunderstorms, these amazing animals travel 35 miles a day in a race against time in search of the bare essentials of life. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Mysterious, cunning, smart, and sleek, foxes are one of kids' favorite animals. Learn all about this fantastic forest canine!

Introduces the migration patterns of monarch butterflies, describing the vast distances they cover, why they migrate, and the dangers they face along the way.

Presents the life of sea turtles, including where they travel, how they build nests, and what they eat.

Animal Architects (L3) (National Geographic Readers)

Who could resist celebrating sea turtles? They may seem like lazy ocean reptiles drifting with the oceans' currents, but they are actually long-distance swimmers that spend their entire lives searching for food and a mate. What's more, they come with their own built-in GPS, returning to the exact beach where they were born to lay their own eggs. Kids will learn all about these tranquil and mysterious animals through brilliant photography and illustrations, plus the trusted and distinctive content you love from NG Kids! They're SSSSLITHERY! SLIPPERY! They creep us out! But get to know them and you'll find snakes private, quiet types who just want a cool, shady place to call home. From the tip of their forked tongues, to skin that sheds, to the rattles on certain tails, these creatures have secrets all kids will love. Cool photos and fun facts slip us inside their surprising world.

Get ready for a walk on the wild side in this image-packed book all about bears! Kids will learn about different kinds of bears, where they live, and what they do. This level 3 reader is written in an easy-to-grasp style to encourage the animal lovers of today and

scientists of tomorrow!

National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels. Level 4: Independent reader Perfect for kids who are reading on their own with ease and are ready for more challenging vocabulary with varied sentence structures. They are ideal for readers of White and Lime books. Chocolate or vanilla? Creamy peanut butter or crunchy? Cats or dogs? On some matters in life, every kid must take a stance. Ever since the first youngster in history had a pet, cats vs. dogs has been a hotly debated issue at break times and lunch tables worldwide. Which one's better? Smarter? This reader presents the facts in fun and informative fashion. Kids will love the stimulating level 4 text as they decide the answer to this question for themselves.

Amazing Animal Journeys

A beautiful hardback edition of the bestselling story about the very hungry caterpillar by Eric Carle with an audio CD, packaged in a sturdy slipcase. Read by Eric Carle himself with both straight reading and read-along tracks with music. The read-along track has a special sound to indicate when to turn the page.

Awesome facts, crazy quizzes and brain-busting games. Everything you need to know about amazing animal journeys!

The monarch butterfly, one of the most seemingly delicate of all of nature's animals, proves to be one of the toughest in this reader. Making the yearly trip from the Northern United States and Canada to the Oyamel forest of Mexico is no easy task, and it takes five generations of butterflies in order to do so. Battling cold temperatures and the threat of starvation, these beautiful insects complete an almost 3,000 mile journey over the course of two months, only to have to turn and around and head back home. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Sometimes, the uglier, the better! In this level 2 reader, young readers will meet the ugliest of animals. Follow these funny-looking creatures and learn how their strange looks help them in the wild. Interesting photos and carefully leveled text make this book perfect for reading aloud or for independent reading.

National Geographic Readers: Alligators and Crocodiles

Butterflies

National Geographic Kids Readers: Animal Armor (L1)

Deadliest Animals

Introduces sperm whales, including their different body parts, how they travel in groups, what they eat, and how they care for their young.

Ponies is replete with brilliant photographs and catchy content that will both teach and entertain. Children will be captivated as they watch a brand new baby foal walk within minutes of being born then quickly turn into one of the most graceful animals on Earth. Like all of our level 1 readers written by skilled children's books authors, this title invites kids to learn more about their favorite topics in a familiar format that instills success. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. From the Trade Paperback edition.

From geckos to iguanas, komodo dragons to chameleons, lizards are about the most awesome animal around! They inhabit every continent except Antarctica. Some are lethal. Some change color. Some have suction cups on their feet. There is enough fascinating information about these animals to fill an entire library of readers! But we've taken the absolute coolest information about the coolest animal and compacted it in this fascinating level 2 reader, perfect for anyone who loves slippery, slimy, creepy, and crawly. This high-interest, educationally vetted series of beginning readers features the magnificent images of National Geographic, accompanied by texts written by experienced, skilled children's book authors. The inside back cover of the paperback edition is an interactive feature based upon the book. Level 1 books reinforce the content of the book with a kinesthetic learning activity. In Level 2 books readers complete a Cloze letter, or fun fill-in, with vocabulary words. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Whales, Wildebeests, Butterflies, Elephants, and Other Amazing Animals on the Move

Todos los años, grandes y pequeños animales se ven obligados a migrar para sobrevivir. Tanto en el mar como en la tierra, estos animales enfrentan obstáculos y fuerzas naturales para poder reproducirse, alimentarse y mantener a su especie fuerte para futuras generaciones. Este libro es una introducción a las travesías peligrosas de la zebra, de la morsa y del cangrejo rojo de la Isla de Navidad, quienes luchan contra chitas hambrientas, locas hormigas amarillas y hasta contra su propia especie para poder

completar la travesía de su vida. National Geographic apoya a los educadores K-12 con Recursos del ELA Common Core. Visita natgeoed.org/commoncore para más información.

Everyone loves the smile on a dolphin's face. Though smart enough to become theme park tricksters, dolphins are first and foremost wild mammals. Melissa Stewart's lively text outlines our responsibility to conserve their natural environment. This high-interest book also offers an interactive experience to boost awareness of these adorable creatures. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Every year like clockwork, animals both big and small are driven by a natural instinct to move, in order to survive. On both land and sea, they fight the odds and the forces of nature to breed, feed, or lead and carry on for future generations. This reader is an introduction to the treacherous trek of the zebra, walrus, and Christmas Island red crab to overcome obstacles that include hungry cheetahs, stinging yellow crazy ants, and even their fellow species to make the often impossible journey of their lives. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. From the Trade Paperback edition. Examines creatures that live in the sea, including the blobfish, jellyfish, and moray eels.
