The crime of rape has been prevalent in all contexts, whether committed during armed conflict or in peacetime, and has largely been characterised by a culture of impunity. International law, through its branches of international human rights law, international humanitarian law and international criminal law, has increasingly condemned such violence and is progressively obliging states to prevent rape, whether committed by a state agent

A Scot in the Dark

Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries. And yet, relatively little has been written on the translation of comics. Comics in Translation attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the

role played by translation in shaping graphic narratives that appear in various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics, including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. Comics in translation examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural

The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English, Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi. *Busty* is a collection of original short

stories and confessions from both women and men, collected specially for those in love with women's breasts. This salacious body of work has been edited by a genuine enthusiast, drawing on extensive experience and an unashamed obsession with full breasts, from the pleasingly womanly to the downright gigantic. This is not only an epic journey to the heights of breast worship, but the third book in the new Nexus Enthusiast imprint: an original series that will explore and tantalise the reader with the most highly detailed fetish literature actually written by genuine enthusiasts for genuine enthusiasts. It's as kinky as fiction can get!

The previous edition of this now-

classic book revealed the existence and subversive manipulations of "economic hit men." John Perkins wrote that they "are highly paid professionals who cheat countries around the globe out of trillions of dollars. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder." In Perkins's case the tool was debt --convincing strategically important countries to borrow huge amounts of money for enormous "development" projects that served the very rich while driving the country deeper into poverty and debt. And once indebted, these countries could be controlled. In this latest edition, Perkins provides revealing new details about how he and others did their work. But more

importantly, in an explosive new section he describes how the EHM tools are being used around the world more widely than ever-- - even in the U. S. itself. The cancer has metastasized, yet most people still aren't aware of it. Fear and debt drive the EHM system. We are hammered with messages that terrify us into believing that we must pay any price, assume any debt, to stop the enemies who, we are told, lurk at our doorsteps. The EHM system - --employing false economics, bribes, surveillance, deception, debt, coups, assassinations, unbridled military power - --has become the dominant system of economics, government, and society today. It has created what Perkins calls a ""Death Economy.""

But Perkins offers hope: he concludes with dozens of specific, concrete suggestions for actions all of us can take to wrest control of our world away from the economic hit men, and help give birth to a Life Economy.

experiences and perspective garnered from of a group of post-secondary Black African American, bi-multi-racial male students aged 19-37. The undergirding interest was to see if there was an awareness of the group's manly inclinations, tendencies and predispositions and understand how such awareness projects and influences their quest and discipline for learning and to academically achieve. The sociological construct of "habitus", as conveyor of dispositions, inclinations,

and tendencies, provides an analytical framework permitting an appreciation of interactions between personal identity, social belonging and approaches to learning and education. The result is an original and powerful account of the ways in which unspoken dominant mainstream intergroup cultural relationships, involving social-political attitudes, decision making, and behavioral reactions and responses, interact with internalized self-in-group or in ascription with group, oppression, repression, inte

Intellectual-cognitive-physical strategies, determination, and work, that have brought men of Black African American, bi-multi-racial descent, in the U.S., to their current social position. Unlike some public discourse in U.S. society, this is not a blame game, nor is it one of relinquishing self or group responsibility, but one based upon and motivated by a deeper understanding of complex facts. The prose can be best described as an ethnographical narrative, synthesizing a wealth of original observations with

insights from scholarly and popular literature and media. Its original and engaging style may appeal to a broad audience including postsecondary educators and students, researchers studying the sociology of gender, African American identity, intercultural relational communications, student services, social work, and social psychology as well as mental and physical healthcare practitioners. for more than thirty years. It is central to the self-understanding of the Anglican, Roman Catholic and Orthodox Churches, and has been prominent in the work of the World Council of Churches. This book, based on the 1996 Hulsean Lectures, examines the significance of Koinonia for contemporary ecumenical theology, tracing the development of contemporary understanding in critical engagement with the thoughts of Plato, Aristotle, the Hebrew Scriptures, the New Testament, the

Cappadocian Fathers and Augustine. In each case, reflection on community life is related to actual communities in which texts were produced. The importance of conflict and the place of politics for the Koinonia that constitutes the Christian churches is a major theme throughout. Communion is seen as a gift to be received and a discipline to be cultivated in the continuing practice of ecumenism.

into Auschwitz; the Carnegie Institution for its proliferation of the concept of race science, racial laws, and the very mathematical formula used to brand the Jews for systematic destruction; and others. This book discusses private policing conducted by fraud examiners and financial crime specialists when there is suspicion of white-collar crime. The theory of convenience applies to the suspected crime, while the maturity model applies to the conducted investigation. Private policing of economic crime

by fraud examiners in internal investigations is a topic of increasing concern as there is a growing business for law firms and auditing firms to conduct inquiries and reviews when there is suspicion of misconduct, wrongdoing, and crime by white-collar offenders. The key features of this book are the application of a structural model for convenience theory and the application of a maturity model for fraud examinations. The structural model assesses convenience themes for motive, opportunity, and

willingness in each case study, while the maturity model assesses the level of private policing maturity in fraud examinations. For the first time, two emerging frameworks to study white-collar offenses and private policing maturity are introduced and applied to a number of cases from Denmark, Iceland, Moldova, the Netherlands, Norway, Sweden, and Switzerland. This book will be essential to those studying law, business, and criminology, as well as practicing fraud examiners.

Thomas De Quincey (1785-1859) is considered one of the most important English prose writers of the early-19th century. This is the first part of a 21-volume set presenting De Quincey's work, also including previously unpublished material.

This major two-volume study offers

an interdisciplinary analysis of Montaigne's Essais and their fortunes in early modern Europe and the modern western university. Volume One focuses on contexts from within Montaigne's own milieu and on the ways in which his book made him a patron-author or instant classic in the eyes of his editor Marie de Gournay and his promoter Justus Lipsius. Volume Two focuses on the reader/writers across Europe who used the Essais to make their own works, from corrected editions and translations in print, to life-writing and personal records in manuscript. The two volumes work together to offer a new picture of the book's significance in literary and intellectual history. Montaigne's is

now usually understood to be the school of late humanism or of Pyrrhonian scepticism. This study argues that the school of Montaigne potentially included everyone in early modern Europe with occasion and means to read and write for themselves and for their friends and family, unconstrained by an official function or scholastic institution. For the *Essais* were shaped by a battle that had intensified since the Reformation and that would continue through to the pre-Enlightenment period. It was a battle to regulate the educated individual's judgement in reading and acting upon the two books bequeathed by God to man. The book of scriptures and the book of nature were

Download Free Nexus Confessions Volume Two 2

becoming more accessible through print and manuscript cultures. But at the same time that access was being mediated more intensively by teachers such as clerics and humanists, by censors and institutions, by learned authors of past and present, and by commentaries and glosses upon those authors. Montaigne enfranchised the unofficial reader-writer with liberties of judgement offered and taken in the specific historical conditions of his era. The study draws on new ways of approaching literary history through the history of the book and of reading. The *Essais* are treated as a mobile, transnational work that travelled from Bordeaux to Paris and beyond

to markets in other countries from England and Switzerland, to Italy and the Low Countries. Close analysis of editions, paratexts, translations, and annotated copies is informed by a distinct concept of the social context of a text. The concept is derived from anthropologist Alfred Gell's notion of the "art nexus": the specific types of actions and agency relations mediated by works of art understood as "indexes" that give rise to inferences of particular kinds. Throughout the two volumes the focus is on the particular nexus in which a copy, an edition, an extract, is embedded, and on the way that nexus might be described by early modern people. As our interactions with others become ever more mediated by various forms of electronic communication, the relationship between crime and technology is becoming an increasingly important topic for both theoretical and practical studies of criminology. This book analyzes digital communications as they play a part in

In 1940s Los Angeles, an unidentified murder victim is found bisected in a shadowy lot. A catchy nickname is given her in jest—"The Virgin Tramp"—and suddenly a "nice little homicide that would have drifted off the front pages in a couple of days" becomes a storm center. Two brothers, Tom and Des Spellacy, are at the heart of this powerful novel of Irish-Catholic life in Southern California just after World War II. Played in the film version by Robert Duvall and

Robert De Niro respectively, Tom is a homicide detective and Des is a priest on the rise within the Church. The murder investigation provides the background against which are played the ever changing loyalties of the two brothers. Theirs is a world of favors and fixes, power and promises, inhabited by priests and pimps, cops and contractors, boxers and jockeys and lesbian fight promoters and lawyers who know how to put the fix in. A fast-paced and often hilarious classic of contemporary fiction, True Confessions is about a crime that has no solutions, only

victims. More important, it is about the complex relationship between Tom and Des Spellacy, each tainted with the guilt and hostility that separate brothers.

Following 9/11, increased attention has been given to the place of religion in the public sphere. Across the world, Law and Religion has developed as a sub-discipline and scholars have grappled with the meaning and effect of legal texts upon religion. The questions they ask, however, cannot be answered by reference to Law alone therefore their work has increasingly drawn upon work from other disciplines. This Research Handbook assists by providing introductory but

Augustine of Hippo is arguably the most influential author in the history of Christian thought and institutions.

Yet he has been revered by some reviewers and vilified by others.

Contemporary critical approaches to historical authors can illuminate features of Augustine's thought and activities that are not noticed when reviewers' attention is either exclusively sympathetic or intransigently critical. Anyone who seeks to present an Augustine who has relevance for the twenty-first century must somehow hold

together delight in the beauty of his prose and the profundity of his thought with dismay over some of the intentions and effects of his teachings. The essays in this book endeavor to read Augustine simultaneously critically and appreciatively. Miles places his thought in the context of his classical heritage and notices how pervasive in later Christian authors are the themes that informed Augustine's thought. Understanding his writings as a passionate effort to describe a metaphysical universe that accounts for the endlessly fascinating mystery of embodied life makes many of Augustine's proposals accessible, useful, and delightful in the context of

contemporary quandaries and issues. His conclusions are less important than his method: In Augustine, knowledge and life mutually illuminate, energize, and critique each other, exemplifying the practice of a fully human life. Exploring some of his most persistent themes, these essays seek to show how Augustine's theology works.
