File Type PDF

Psychological

Stress

Participation

Motives Children

In Sport

Participation in sports is a major feature of daily living for children and adolescents in many countries of the world.

Structures of organized programs vary within and

File Type PDF

Psychological

Stress

among

Participation

countries.

Motives Children

In Sport

Likewise, sport

offerings and

values attached

to these sports

vary with

cultural

context. Sport

is also a

primary source

of physical

activity for

File Type PDF

Psychological

Stress

many children

and

adolescents,

and is an arena

in which

personal and

inter-personal

values and

behaviors are

developed and

nurtured. Key

players in

these important

*Principles and
Practice*

Motives Children

In Sport

Does

participation in
competitive
athletics
influence the
growth and
development of
children? In
order to answer
this question,
researchers at

File Type PDF

Psychological

Stress

the University
of Western

Australia Children

collected data
for five years.

They compared
the

anthropometric,
functional,

physiological,
and behavioral

measurements of
youngsters who
were tennis

File Type PDF

Psychological

Stress

players,
swimmers, and

members of a non-

competitive

control group.

The unique
feature of this
study is that
subjects were
selected on the
basis of
athletic success
at an early age
- no previous

File Type PDF

Psychological

Stress

study has done

Participation
this. It was

Motives Children
hoped that

In Sport
choosing

youngsters who

were successful

in swimming or
