

Strategic Management 10th Edition

International Management: Culture, Strategy, and Behavior reflect new and emerging developments influencing international managers. With integrated real-world examples, research, and practical applications, students understand how to adjust, adapt, and navigate the changing global business landscape and respond to global challenges-making it a market-leader. The authors retain research and practices over the past decades, and incorporate new and emerging developments affecting international managers to increase students' effectiveness in managing across cultures.

Strategic Management: Strategists at Work provides a practical and simple approach to developing a comprehensive strategic plan, as the authors share what they have learned through two decades of strategy work with a myriad of organisations. Focusing on the practicalities of developing strategy and presenting cutting edge theory in an accessible manner, this book delivers key insights into the strategist's role. Key benefits: • Provides a comprehensive range of templates that have been road-tested with over 400 senior managers • Includes extensive case material and interviews • Lecture slides, tutorials, and multiple choice questions available on the companion website

The preceding process of globalization and the continuously rising competitive pressure on manufacturing companies in more developed economies unveiled the limits of classical site-focused optimization approaches. The focus of network optimization shifts ever more towards an integrative view of manufacturing networks, striving for a harmonization of the strategy-, configuration- and coordination levels. This book presents such an integrative approach to the strategic management of manufacturing networks. Besides strategic network requirements, this book discusses the derivation of an optimal global footprint and the optimization of network coordination activities. Special attention is paid to the site roles concept, especially to the concept of 'lead factory'. A large number of up-to-date cases from the producing industry enrich the book and provide the reader with vivid examples for the application of the presented concepts. Hence, this book is a must-read for both practitioners and academic researchers.

Thompson/Strickland is the strategic management market leader by a wide margin. The eleventh, or alternate, edition of the book contains exactly the same text as the 10th edition but includes all new cases. With so many business schools offering a strategic management course every term, the case collection in any one edition "wears out" after a few terms. The strong desire of adopters for fresh cases, together with welcome and much needed growth in the supply of first-rate cases being developed each year makes it necessary for us to institute a short case revision cycle and provide a second collection of cases to choose from. The 10th

edition, with all its various components, will be available throughout the life cycle of the 11th edition.

This edition, which now includes fully classroom-tested case studies, covers the core aspects of the business strategy syllabus as well as reflecting the cutting edge of strategic management thought.

Robert M. Grant combines a highly accessible writing style with a concentration on the fundamentals of value creation and an emphasis on practicality in this leading strategy text. In this new edition, he includes an even greater focus on strategy implementation that reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. This edition also incorporates some of the key strategic issues of today including: post-financial crisis adjustment, the continuing rise of China, India and Brazil, and the increased emphasis on ethics and sustainability. Coverage is also provided on strategy in not-for-profit organizations. Contemporary Strategy Analysis, 8th Edition, is suitable for both MBA and advanced undergraduate students. It has been adopted by leading business schools all across the world.

Concepts and Cases

The Second Edition of the book encompasses two new chapters—Strategic Cost Management and Business Ethics—A Strategic Financial Management Instrument. The book, being an augmented version of the previous edition, equips the young managers with the fundamentals and basics of strategic management and financial management in a cogent manner. The text now provides a better orientation to the students on the topics like corporate restructuring, divestitures, acquisitions, and mergers in the global context with the help of examples and caselets. The book has been revised keeping in view the requirements of postgraduate students of management and the students pursuing professional courses such as CA, MFC and CS. In addition, professionals working in the corporate sector may also find the book beneficial to integrate the financial management functions into business strategy and financial operations.

Distinctive features • Model question papers have been appended at the end of the book. • Better justification of topics by merging the contents wherever required. • Theory supported with caselets inspired from global as well as Indian context.
