

The Golden Reed

The building of a glorious perfected selfhood is the work of every life. Higher consciousness is the final destiny of every soul; it is what we really live by and today we know that in order to advance and grow, we must consecrate and bring it here and now, into its fullest expression in our life. In the light of this higher understanding we can see that our human nature rises towards the Universal Wisdom, our human perception becomes widened.

The Collected Works of Witness Lee, 1964, volume 2, contains messages and fellowship given by Brother Witness Lee from June 11 through September 5, 1964. After completing a monthlong conference and training in New York City, Brother Lee traveled to Miami and Orlando, Florida, to Washington, D.C., to Cleveland, Ohio, to Pittsburgh, Pennsylvania, and to Louisville, Kentucky, to visit the saints. There are no records of his fellowship during this trip. On August 2 Brother Lee returned to Los Angeles in order to conduct the summer training. The contents of this volume are divided into six sections,

as follows: 1. A series of twelve messages given in New York City on June 23 through July 11 as part of a monthlong conference and training. This series of messages is included in this volume under the title The Proper and Adequate Service to the Lord. 2. Six miscellaneous messages given in New York City from June 11 through July 5. These messages are included in this volume under the title Miscellaneous Messages Given in New York City. 3. Eight messages given in New York City on June 16 through 26 as part of a monthlong conference and training. These messages constitute the first part of a four-part series previously published under the title A General Sketch of the New Testament in the Light of Christ and the Church, Part 1. 4. Fifteen messages given in New York City on June 28 through July 11 as part of a monthlong conference and training. These messages form the second part of a four-part series previously published under the title A General Sketch of the New Testament in the Light of Christ and the Church, Part 2. 5. Eight messages given in Los Angeles on August 11 through 22 as a continuation of the series begun in New York City. These messages compose the third part of a four-part series previously published under the title A General Sketch of the New Testament in the Light of Christ and the Church, Part 3. 6. Fourteen messages given in Los Angeles on August 22 through September 5 as a continuation of the series begun in New York City.

Egyptologist Gerald Massey challenged readers in A Book of the Beginnings to consider the argument that Egypt was the birthplace of civilization and that the widespread monotheistic vision of man and the metaphysical was, in fact, based on ancient Egyptian mythos. In The Natural Genesis, presented here in an omnibus edition, Massey delivers a sequel, delving deeper into his compelling polemic. In Volume I, he offers a more intellectual, fine-tuned analysis of the development of society out of Egypt. From the simplest signs (numbers, the cross)

to the grandest archetypes (darkness, the mother figure), Massey carefully and confidently lays the cultural and psychosocial bricks of evolutionism. Volume II provides detailed discourse on the Egyptian origin of the delicate components of the monotheistic creed. With his agile prose, Massey leads an adventurous examination of the epistemology of astronomy, time, and Christology—and what it all means for human culture. British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best known works are in the realm of Egyptology, including *The Book of the Beginnings*, *The Natural Genesis*, and *Ancient Egypt: The Light of the World*.

The dates of the four Vedas, as well as the homeland of the Indo-European-speaking people, have been two unresolved issues in the Indian history. This book uses the robust information recently emerging from archaeo-botanical studies, particularly palinology, as well as that originating from the researches in geology, archaeology, and genetics. The information generated from these scientific studies provides a vivid picture of the last ten thousand years of Europe and Asia. This picture has been matched against the information about the plants, animals, and climate contained in the four Vedic Samhitas, as well as that emerging from the philological studies. The final picture emerges that the Rig-Veda was composed between 8000 BC and 6000 BC, Sama-Veda between 6000 BC and 5500 BC, Yajur-Veda between 5500 BC and 2500 BC, or perhaps 2000 BC, and the Atharva-Veda between 1500BC and 1300 BC. The investigation also reveals that the Indo-European

words for "lion" "kesari" "singh" "camel" "ustra" "ostrich" "opium" "lotus" etc. characteristically Indian animals and plants, have existed in the Indo-European vocabulary, although not noticed so far. That exercise fixes the location of the Indo-European homeland in Northwest India at about 10,000-8,000 BC.
