"Not many living artists would be sufficiently brave or inspired to attempt reflecting in art what Borges constructs in words. But the detailed, evocative etchings by Erik Desmazieres provide a perfect counterpoint to the visionary prose. Like Borges, Desmazieres has created his own universe, his own definition of the meaning, topography and geography of the Library of Babel. Printed together, with the etchings reproduced in fine-line duotone, text and art unite to present an artist's book that belongs in the circle of Borges's sacrosanct Crimson Hexagon - "books smaller than natural books, books omnipotent, illustrated, and magical."--BOOK

CURIUM is the story of thirty-five year Park employee Jack Jones after he receives an unexpected death sentence from his doctor. Jack works at Steadyland -- the world's biggest, most successful and well-known amusement park. Designed and built in Beatrice, California in the early 1950's by animation genius Gomer Steady, the Park reinvented itself over time by incorporating tons of cutting-edge technology as it grew in popularity. But some of these entertainment advances came at a high price. The computer-driven animated technology known as audioroboticals was developed in secret, with little or no oversight regarding safety. Over time, Park employees and even some Park Guests were exposed to dangerous side effects. The bigshots treated Park customers like lab rats flush with cash. During a period of rapid expansion, management installed those nasty little audioroboticals all over the Park. There were thousands of robots in the much-loved (and much-hated) It's A Doll's World and The Polynesian Bird Room. And then there was Steady's personal favorite - the patriotic George Washington exhibit - a presidential audiorobotical that was, in fact, as dangerous as Three Mile Island. The Park administrators knew of the problem, but they decided to cover-up the "situation" rather than spend hundreds of millions of dollars fixing it. As a result, many of the Park's long-time employees began to experience gruesome metabolic deterioration. The Park's Suits retired the George Washington exhibit and mothballed the robot inside a storage facility deep underground. But "he" is about to be liberated from exile by ex-employees seeking revenge. And revenge - as everybody knows - is a dish best served very, very hot. Oh, and please keep your hands and feet inside the ride vehicle at all times.

Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes; but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The tide is changing, though. Amber Picotas Gods Feminist Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and
