"Simply Captivating" - Tom Ziglar, CEO of Zig Ziglar Let's face it: we live in a predominantly negative world, and it seems to be getting worse. You see it in the economy, our politics, and our relationships. It's evident in the social unrest and the social media. And it's easy to get caught in the current of negativity and swept away in pessimism. When that happens it can make our lives and those around us less than joyful - even downright miserable. Been there? What's worse - if you happen to be a Bible believer who struggles with negativity you can feel ashamed - especially if you've been told that people of faith should be happy all the time. Maybe some of the "optimists" you've met have been so extreme in their positivity they're scary. Or, perhaps you're just simply not a natural optimist and want to learn how to have a happier, more fulfilling life. If any of this sounds familiar - get ready for some good news. There is hope! There are things you can do to become more optimistic. You can actually choose optimism! Gary D. Moyer is living proof. Gary grew up with a negative mindset -a natural talent for finding the downside to life. Today he is known as an optimist and encourager, sharing with people everywhere how to embrace a more positive life. This book is not just a compilation of some nice ideas about optimism, but is results-oriented, giving practical steps you can take right away to begin a new, optimistic, more fulfilling life - including the "missing link" other self-help books miss, to help convert your learning into action.

Delivering cutting-edge new research, wisdom gleaned from experience, and poignant insights from his work at Zig Ziglar Corp, Tom Ziglar identifies the communication styles that will keep everyone on the same page, regardless of their working environment. He also emphasizes the importance of closing the "empathy gap" between management and staff in order to create a more connected team that operates to its fullest potential--and how developing each team member's unique dreams, goals, and abilities sets up the company for success. In 10 Leadership Virtues for Disruptive Times, Ziglar shows why "coach leadership," instead of management leadership, is the best way to lead through immense change and challenge. It is essential guidance for leaders who want to coach their teams through inevitable periods of disruption with the goal of helping them thrive at home and at work.

Refire! Don't Retire asks readers the all-important question: as you look at the years ahead, what can you do to make them satisfying and meaningful? Ken Blanchard and Morton Shaevitz point out that some people see their later years as a time to endure rather than as an exciting opportunity. Both research and common sense confirm that people who embrace these years with energy and gusto—rather than withdrawing and waiting for things to happen—consistently make the rest of their lives the best of their lives. In the trademark Ken Blanchard style, the authors tell the compelling story of Larry and Janice Sparks, who discover how to see each day as an opportunity to enhance their relationships, stimulate their minds, revitalize their bodies, and grow spiritually. As they learn to be open to new experiences, Larry and Janice rekindle passion in every area of their lives. Readers will find humor, practical information, and profound wisdom in Refire! Don't Retire. Best of all, they will be inspired to make all the years ahead truly worth living.

Governance is a word that is increasingly heard and read in

Online Library Ziglar Performance Planner

modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007–2008, the financial sector’s place in the economy and its methods and ethics have (rightly, in many cases) been under scrutiny. Coupled with this theme,

Online Library Ziglar Performance Planner

the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

Bush's Law is the alarming account of the White House's efforts to prevent the publication of Eric Lichtblau's exposé on warrantless wiretapping—and an authoritative examination of how the Bush administration employed its “war on terror” to mask the most radical remaking of American justice in generations.
